To whom it may concern,

As we prepared our booth at the Career College Assn. Conference this past week I had the need of an electrician to finish the lighting and other needs for our booth. Tina was sent to us to complete the job.

Undoubtedly she did a FANTASIC job. She made various suggestions to make our electrical needs easier and more logical. She moved quickly to get the job done as time was short and just was a pleasure to work with.

I truly enjoyed my brief encounter with Tina. She is an asset to Edlen and a employee you should be proud of. She did a GREAT job.
